## خلاصه مقاله:

*Andreimyrmex substriolatus* (Chen, ۱۹۵۷) and *Odontomutilla fletcheri* Lelej, Terine & Girish Kumar, ۲۰۲۰ (Hymenoptera, Mutillidae) are newly reported from India. *O. fletcheri* was only recorded from Sri Lanka till now & *A. substriolatus* was only known from various Southeast Asian countries (China, Taiwan, Indonesia, Japan, Laos, Malaysia, Thailand and Vietnam), in the present study these species are discovered from India which pronounce the geographical affinities of India with Sri Lanka and Southeast Asian countries and vice versa. Diagnosis, figures, distribution maps and remarks of these species are provided.

## کلمات کلیدی:

Chhattisgarh, Meghalaya, Mutillinae, Odontomutillinae, Oriental, velvet ants
