خلاصه مقاله:

Afghari Akbar (۲۰۰۷), in his article A sociopragmatic study of apology speech act realization patterns in Persian categorizing the range of strategies used in performing the speech act of apologizing in Persian. At first he wants to extract and categorize the range of strategies in the speech act of apologizing in Persian (a non-western culture) and to see whether Persian apologies were formulaic in pragmatic structure as in English apologies or not, and then he investigate the effect of the values assigned to the two context-external variables of social distance and social dominance on the frequency of the apology intensifiers
